

Sustainability of Clean Energy & Economic Growth

By: Christopher, Darrion, Flor, Isaiah, and Wade

Introduction

What are our SDGs?

**Ensure access to
affordable, reliable,
sustainable and
modern energy for all**

Roughly 800 Million People
in the World Lack
Electricity

**Promote sustained,
inclusive and sustainable
economic growth, full and
productive employment
and decent work for all**

Almost a Fifth of Children
around the World are not
being Educated

Bringing Awareness

What is the Project?

Efficient, Clean and Sustainable Energy
Creating a Productive Economy

The Goals

Acknowledgement/Identification of Problems
Resolve the Issues for a Sustainable Future.

The Beneficial Impacts

Peace, Expansion in Growth in both Energy and Economic
Magnification
Community Amalgamate, Healthier "Collective"

Goals and Deliverables

Integrate "System Thinking"

New Mexico: Reduce Consumption and Increase Solar/Nuclear Energy

The Artic: Create Peace between Nations to Save our Planet

Deliverables:

- Accurate Data
- Global Organization
- Sustainable Life
- Consistent / Stable Economic Growth

Related Departments:

- DOE/DOH
- U.S. Energy Corp
- U.S. Bureau of Economic Analysis (BEA)
- Environmental Protection Agency (EPA)
- Bureau of labor statistics (BLS)

Approach / Methodology

Focus on ABQ, collaboration with officials, integrate government departments

Develop a “system thinking” plan for individuals and locals, in addition to find a cleaner more sustainable SDG's

Connect to industries, work with people in power in New Mexico, work with working class people of New Mexico

Come to agreements with the community: problems, economic growth, Clean Energy

Funds : nationally (taxes) or by locally(donations)

Plan is being executed: start the manifestation, Expand message, Communicate/convey plan

Cooperate with big companies to develop substantial growth

Work against internal corruption and focus public effort in an effective manner.

Lastly, obtain the goal of sustainable energy and economic stability throughout the nation and globally.

Approach / Methodology

Communication between Systems and Communities

- Establish Information Channels

- Mobile Applications

- Word of Mouth

- Accountability

Efforts Where the People are Working on this and Organization

- Recruitment (Jobs)

- Incentives (Cash / Benefits)

- Supply Material Need

- Workshops

Funding from Surrounding Organizations

- Community / National Fundraising (Taxes)

- Laws and Organized Requests

- Working with Others that have Common Goals
